You are correct. HW-19, and HW-19P were not sent to Test America.

From what information we have these samples were not shipped to private labs. I just need verification from you so we can cross this off of our final report tracking.

Subject: Fw: Test America shipped samples Not sure how accurate this is but looks like we are missing COC records for HW19 and HW19-P that went to TestAmerica Lab. We were trying to track down the missing data points in the prelim table and the three samples below are the ones we are tracking down.

Robin,

According to COC records Test America did not get samples HW19 or HW19-P. They did get HW30-P.
